AIDS & THE MOVING IMAGE 2

Thank you for attending the 2nd annual AIDS & THE MOVING IMAGE exhibit. The range of visitor responses to last year’s exhibit on WORLD AIDS DAY illustrated how effectively moving images convey information and emotion. Whether confronted with offensive talk shows exploiting the AIDS-crisis for ratings, or passionate queer activist works artistically exploring community experiences neglected by mass media, many visitors to the exhibit expressed that the totality of images on display had an unexpected power to provoke, move, outrage.

The images in this exhibit are again presented in the hope of raising AIDS awareness and initiating discussion. All of the materials displayed are available for research viewing here on the UCLA campus. Staff from the Archive Research and Study Center (ARSC) and the Instructional Media Library (IML) are on hand to provide reference assistance and information on how to access these collections. You are strongly encouraged to further investigate the issues presented by requesting these titles for individual study.
ABOUT THE COLLECTIONS

Instructional Media Library (IML)
The Instructional Media Library (IML) is UCLA’s central resource for the collection and maintenance of instructional media. The IML primarily serves faculty and departmental personnel who use media in the classroom. The IML has a collection of approximately 10,000 videotapes, laserdiscs, DVDs, CD-ROMs, films and slide/tape modules and houses and maintains several department and study center collections.

For more information, please visit the IML website at:
